PROFESSIONAL SUMMARY

I am an Information Technology graduate specializing in Software Development, equipped with strong technical skills in developing secure and efficient software solutions. I am passionate about solving complex challenges, driving innovation, and contributing to organizational success while ensuring the security and integrity of digital infrastructure.

EDUCATION

Nelson Mandela University

2025 – 2025

Advance Diploma in Information Technology

- Awarded Top Advanced Diploma Graduate for 2025.

Nelson Mandela University

2022 – 2024

Diploma in Information Technology specializing in Software Development

- Awarded times student merit bursaries based on academic record.

Relevant coursework and projects:

- **ONP400 (2025):** Role-based web system for prescription processing, dispensing, inventory, and reporting using C#, .NET Framework, MSSQL, Dapper, HTML, CSS, JavaScript, and bootstrap.
- **ONT2030 (2024):** Web application for patient admissions, treatment workflows, and resource management using C#, .NET Framework, MSSQL, Dapper, HTML, CSS, JavaScript, and bootstrap.
- **ONT2000 (2023):** Windows Forms desktop application using C#, OOP principles, for academic assessment, grading, and record management.

Programming languages:

- C# & SQL
 - HTML, CSS, JavaScript, and Python for data analysis
-

CORE COMPETENCIES

- Time Management
 - Research and analysis
 - Effective Communication & Team Collaboration
-

WORK EXPERIENCE

SI Leader – Nelson Mandela University

Feb 2025 – Nov 2025

- Facilitated peer-led sessions to support students in mastering C# programming concepts, object-oriented design, and .NET framework fundamentals.
- Developed learning materials and real-world coding examples, improving student understanding and performance in software development coursework.

Residence Student Assistant / Tutor - Nelson Mandela University

July 2025 – Nov 2025

- Provided academic support and mentorship to residence students, assisted with study sessions, facilitated peer learning, and promoted a supportive living-learning environment.

Hackathon Participant – Eastern Cape Automotive & eMobility Hackathon

AIDC-EC | August 2025 – Gqeberha, South Africa

Pillar 2: Supporting SMMEs in the Aftermarket Industry

- Worked in a diverse team to address challenges facing automotive aftermarket SMMEs in the Eastern Cape, applying design thinking to develop a digital platform connecting small auto-repair businesses with suppliers and customers.
- Presented the prototype to industry judges, gaining mentorship and hands-on experience in problem-solving, collaboration, and pitch delivery.

TECHNICAL SKILLS

- Web Development: Developed simple web applications as part of academic projects.
- Database Management: Understanding of SQL and basic concepts of database design. Created and managed databases on coursework.
- Problem-Solving: Ability to analyze and troubleshoot coding issues through academic assignments and peer collaborations.

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

- Project Leader, ONT Program (Second- and Third-Year Projects): Led teams in managing and executing key projects, overseeing project planning, task delegation, and ensuring successful delivery.
- Peer Tutor, Nelson Mandela University
- Assisting fellow students with coursework in Software development and Information systems. Developing strong interpersonal and communication skills.
